Road Report: Mr. Banahasky commented on the fact that he they had removed deer from Township roads. Mr. Brienig, was asked by the Board to comment on whether he still removes deer from state roads. He does not. He was aware that Penn Dot had hired a contractor at one time but does not know if that continued. Regarding guard rail on McChain, Mr. Banahasky said that Interstate went out and measured for the installation and will be providing a quote. Since he had not been able to get through to Penn Line or Green Acres, he was instructed to continue to try to obtain a quote using whatever specs he was given. Mr. Frye asked about whether Jake Brake signs were ordered, which they were not. Mr. Banahasky has questions on the language for the signs and whether an Ordinance Number was required. He was instructed to check Publication 226 or 236 which will tell him what has to be put on the sign. Also, permission will be required from the state to place any signs on state roads. The Treasurer will call Penn Dot. Mr. Banahasky and Mr. Frye provided their opinion on jake braking being permissible on Finleyville-Elrama Road.

It was noted that in the body of the contractor's proposal an escort was requested who can provide access to all facilities. This means EQT must be notified so that an escort can be arranged for water testing of the water impoundment, but notification will not be required for any other test.
